

## Rafael Navarro

Senior Geoscience Analyst

198079

**Organization:** UPTV/CS Subsurface Analytics (Yann Freudenreich)  
(75011593)

**Manager:** Yann Freudenreich

**Position:** 75019212 Senior Geoscience Analyst

**Location:** Houston - EP Center Americas  
**Location hierarchy:** CTY\_US\_HOUS Houston  
**Time in Position:** 1 year(s), 4 month(s), 9 day(s)  
**Length of Service:** 14 year(s), 3 month(s), 0 day(s)

### Job Profile History

**16/03/2025** | 52765869 - Geoscience Geophysics JG3  
**01/03/2025 - 15/03/2025** | 52766787 - Petroleum Eng Reservoir Engineering JG3  
**01/03/2024 - 28/02/2025** | 52765774 - Geology Exploration Geoscience JG3

### Work Experience

**Lead the digitalization of a business** | One assignment as a Digital Product Owner or Digital Product  
**Lead a team** | Leader of Teams: Formally managed a team with at least 6 individual contributors  
**Multi-disciplinary management** | Multiple Assignments

### Job History

**25/08/2020 - Present** | Senior X-Digi Geoscientist | Shell plc  
**15/08/2018 - 24/08/2020** | Senior Exploration Geoscientist (Technical Lead) | Shell plc  
**05/07/2014 - 14/10/2018** | Senior Exploration Geoscientist | Shell plc

### Education

Universidad Simon Bolivar | Bachelors | Engineering (Geophysical)

### Languages

English, Spanish

### Talent Statement

With a foundation as a **geoscientist** and extensive experience in subsurface exploration around the world, I have a deep understanding of the technical challenges and opportunities within the field. This expertise, combined with my advanced **digital skills** in **AI**, **data analytics**, and application development, positions me uniquely to bridge the gap between geoscience and digital transformation. As a Product Owner, I lead teams in creating innovative, practical solutions that not only push the boundaries of what's possible but are also grounded in the realities of subsurface exploration.

What sets me apart is my ability to leverage both domains—bringing technical insight from the field and translating it into digital innovations that drive tangible results. I believe in collaboration, working closely with diverse teams to ensure the solutions we develop are impactful, scalable, and aligned with business

### Talent Summary

**Achievable Level:**

**Last 3 years of Performance Ratings**

Strong, Strong, Strong

### Skill Pools

**Primary Skill Pool** :Geology

**Secondary Skill Pool** :Exploration Evaluation - CoP, Seismic Interpretation - CoP

### Position

**Base Country:** United States of America  
**Compensation Grade:** NC 03  
**Employee Type:** Regular  
**Management Level:** 03

### Mobility

**Travel:** Maybe, 25%  
**Relocation Short Term:** No  
**Relocation Long Term:** Yes  
North America, Europe, South America, Asia  
**Comments:** Only traveling with LTIA

### Career Interests

**Job Interests:** 52767405 - RD Math Comp Data Science Mgmt JG2, 52765829 - Geology Exploration Geoscience Mgmt JG2, 50071194 - Production Technology JG2, 52767357 - Production Technology Lead JG2  
**Career Interests:** I am passionate about advancing the digital transformation of subsurface exploration through the integration of **subsurface analytics** and **artificial intelligence (AI)**. My goal is to harness the power of data-driven technologies to unlock deeper insights, enhance decision-making, and drive innovation in hydrocarbon exploration. Whether through leading **subsurface analytics initiatives** or developing **AI-powered tools**, I am committed to creating digital solutions that improve exploration efficiency and accuracy. I see my future in a role where I can continue leveraging cutting-edge digital technologies to help geoscientists and engineers make smarter, faster decisions in subsurface environments.

### Development Items

Advance Data Visualization & Analytics (In Progress) | Managing people and teams (In Progress) | Learning latest AI (Plan to Stay Informed and Build a Network in AI) (In Progress)
